# Health Policy

Bringing wholeness to individuals and communities, the Institute for Health Policy and Leadership (IHPL) strives to integrate health policy research and education with leadership development. Our goal is to improve the health of our communities by building on our strong heritage of health promotion and disease prevention.

## About the Institute

Our vision is to provide education, leadership and research regarding policies aimed at preventing disease, promoting wellness and restoring human wholeness.

The Institute brings together professionals with diverse expertise to generate innovative ideas regarding non-partisan policy solutions for whole, equitable health.

The Institute fulfills its goals through a variety of activities including quarterly Spotlight on Health Policy events, relevant policy briefs, the Health Policy Connection blog, the Faculty Scholars Program and major conferences. Details regarding these activities can be found at [IHPL.llu.edu](http://IHPL.llu.edu).

## Partnership with AHPA

IHPL collaborates with the Adventist Health Policy Association (AHPA), the policy voice for the five Adventist health systems in North America. To learn more about AHPA please visit [adventisthealthpolicy.org](http://adventisthealthpolicy.org).
